

Announcing the first California Energy-Smart Homes Newsletter!

Electrifying Incentives Available Now

The [California Energy-Smart Homes Program](#) is a residential new construction and alterations program that provides incentives to adopt advanced energy measures and transition to all-electric construction. Utility customers in the SoCalGas®, San Diego Gas & Electric Company (SDG&E®), Pacific Gas and Electric Company (PG&E®), and Southern California Edison Company (SCE®) territories can apply for incentives to support single family, duplex, multifamily low-rise, additions, alterations, and ADU projects.

Ready to enroll a project for incentives?

Upcoming Webinar on Incentives for Electrification Alterations

You're invited to an [Incentives for Electrification Alterations webinar](#) on Thursday, April 28, at 11:30 AM PDT.

Our **Incentives for Electrification Alterations** webinar will focus on the simple steps to qualify single family, duplex, and multifamily fuel switching alteration projects for CPUC funded cash incentives. Technical experts with TRC will cover the process to enroll your electrification alteration projects, share tips on providing photo documentation, outline the timeline to incentive

payout, and answer questions you may have about qualifying your project.
