

## California Energy-Smart Homes Q3 Newsletter

### Ample Incentives Available for Alteration Projects

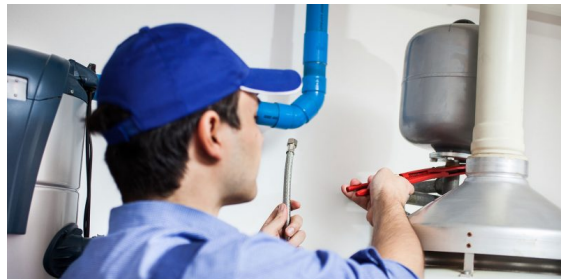

Property owners making fuel-substitution upgrades on their existing single family, duplex, multifamily low-rise properties, or ADUs can receive financial incentives for doing so through the [California Energy-Smart Homes Program](#). Incentives are available to utility customers in SoCalGas®, SDG&E®, PG&E®, and SCE® territories. Visit Energy-Smart Homes [Alteration Incentives](#) to learn more about eligibility and incentives.

Ready to receive incentives for a current or upcoming project?  
[Start your online program application today!](#)

### Consider Upgrading to a Dependable and Energy-Efficient Heat Pump Water Heater

If your water heater is starting to give out, you can avoid cold showers and a hot leaky mess by replacing your gas water heater with an energy-efficient heat pump water heater. Energy-Smart Homes has ample incentives. Avoid the mess and upgrade today!

[Check out our Blog on Heat Pump Water Heaters](#)

### Residential New Construction Incentives Support 2022 Energy Code Updates

The [2022 Energy Code](#) is just a few months out and supports California's climate change mitigation goals. [Residential New Construction Incentives](#) from Energy-Smart Homes offers builders and developers of single family, duplex, multifamily low-rise, and ADU projects per unit incentives to offset the cost of installing advanced energy efficiency measures.
